[illegible]

[illegible] is designed to answer the most [illegible] asked questions about the implementation of [illegible] agencies and provide a reference of higher [illegible] State Agencies to Emergency [illegible].

1. The executive order states that State agencies, including their sub-grantees or to the Commonwealth of Virginia Emergency Operations Plan or [illegible], shall be prepared to support disaster preparedness, response, and recovery efforts upon [illegible] of the governor or his designee. What type of support efforts might be required of a non-VDEM agency?

   Agencies may be asked to support disaster related activities such as [illegible] or office [illegible] services. However, we noted in the executive order that employees may be asked to perform other duties as needed. These may include, but are not limited to, assisting [illegible] operations in coordination with vendors, or other [illegible] functions.

2. Members of the government [illegible] shall be responsible for conducting an annual review of the [illegible] preparedness, response, and recovery roles assigned to their office and State Agencies to ensure that they have adequate plans, [illegible], emergency procurement contracts, staff, and resources to fulfill their responsibilities as assigned in the [illegible]. What is a Notice [illegible] emergency procurement contract?

   A contract or federal [illegible] emergency procurement contract is a contract found in the Code of Federal Regulations (CFR) [illegible]. [illegible] [illegible] [illegible]
