

**PSAP Grant Program
Decision Brief**

Type of Request: NG9-1-1 Funding Award Amendment	Date Submitted: October 28, 2019
PSAPs: Loudoun	Amount of Request: \$4,738.76
Staff Recommendation: Approve	

1. Briefly define the problem/issue:

ISP staff is requesting that the funding award for Loudon County be amended to include an additional allowable NG9-1-1 deployment cost for on-site connectivity placement. If approved by the Board, the amount of the revised funding award would be \$593,674.30. This revised funding award includes \$4,738.76 in additional funding for on-site connectivity placement.

2. Background (include important dates):

Each PSAP needs two distinct paths for two diverse broadband circuits to enter the building. If a PSAP does not already have two, a second route needs to be established from the property line into the building. Loudoun County needs a second route. The cost of adding this was not originally considered in the locality's migration proposal because ISP staff was not aware of the issue until circuit installation started.

3. Major Considerations:

None.

4. Recommended action:

Ask PGC to concur with staff's recommendation and recommend approval of the amendment request by the 9-1-1 Services Board at their next meeting.

5. Alternatives to recommended action:

None.
